

## Information Note for Windows XP Service Pack 2 Users

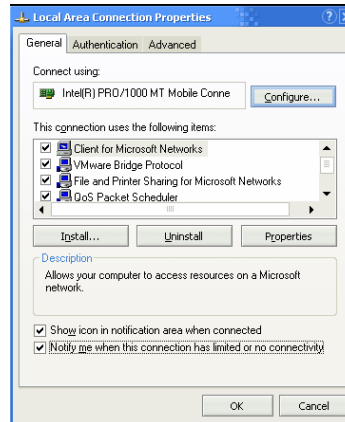

Users of Microsoft Windows XP Service Pack 2, may notice an alert dialogue as shown below referring to the status of your local area connection. This alert refers to the local area network connection, and not to your Veritel Wireless broadband connection. This alert does not affect the performance or function of your Wireless Broadband connection.

Should you want to disable this alert simply follow the steps shown below.

1. Double click on the icon on the task bar, and then click properties.

2. You should now be at the Ethernet adaptor properties, un-tick "Notify me when this connection has limited or no connectivity"

3. Click Ok and you're done.
